- 1/ The plan to introduce a third working shift in the grid-winding shop of the HF plant, Berlin-Oberschoeneweide, has not yet been put into effect, because of the shortages of raw materials for grid production.
2. In an attempt to resolve the difficulties over material supplies, the management has set up a division of reutilization, to recover useful materials from scrapped production. It is designated Accounting Department (Kostenstelle) 563.
- 25X6 3. has recently been employed in the tool-issuing room of the toolmaking department. He was assigned to the plant by the district committee of the SED, for which he formerly worked. It is suspected that he has been brought in to spy on the plant workers. The tool-issue room, where tools are distributed to all the workmen, affords exceptional opportunities for such work.
